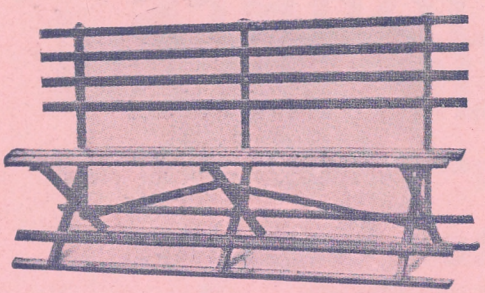
Lawn Rollers

Without a good Roller a smooth, even lawn is impossible. The Roller illustrated is on the lines of the best English makes. Rounded edges so that it will not cut or tear the turf. 20 inches in diameter by 20 inches wide. Every Roller made in two sections. Handle stands straight up when not in use. Made in 250 lb. and 350 lb. sizes for ordinary lawns. Special Rollers for Cricket, Tennis and Rowing Clubs.



Lawn Settees

Comfortable and will stand hard usage. Well braced—can be folded for storage. Foot-board to protect grass and keep feet from damp. Length 6 feet; weight 40 lbs. **400 of this pattern supplied City of Winnipeg.**

Lawn Vases

Beautiful and lasting ornament for lawns, verandahs, balustrades, etc. Painted with handsome Aluminum Bronze. Gives distinction and "class" to your lawn or garden.

ROYAL RECORD

MADE IN CANADA

"The Bond with a Personality"

Royal Record has the bearing of high quality in every sheet. It expresses at once that quiet superiority which is so essential in a high grade paper.

When you take a sheet in your hands it has a feel of elegance that is borne out when it is printed up in a letterhead or other form.

Royal Record is made in Suede, Vellum and Plate finishes, and is stocked in white and colors.

Royal Record will be furnished by any Winnipeg printer or lithographer.

Specify Royal Record and you will have complete satisfaction.

is the PIONEER Implement Company in the Canadian Field as well as the LEADER.

Every new line placed on the market must necessarily go through a period of test and trial at the hands of buyers before its merit and its freedom from defect is thoroughly established.

In selecting the line of Farm Implements that you intend to use, this matter is worthy of your most serious consideration.

You should select a line that has been on the market sufficiently long to prove its QUALITY, and to prove its ABILITY TO SATISFY.

Introductory

THIS FORTY-SIXTH issue of the Greater Winnipeg City Directory comprising the City proper, Elmwood, St. Boniface, Norwood, St. Vital, Fort Garry, St. James, St. Charles, Assiniboia, East and West Kildonan, is presented to the public with the belief that it will meet the demands of the most exacting and will fulfill the requirements of all its users.

The information in this book is gathered as far as possible by actual canvass, and is compiled in a way to ensure maximum accuracy. While the publishers will in no way be held responsible for any errors that may occur, they will be glad to have any inaccuracies brought to their attention, so that they may be corrected in succeeding editions.

The canvass for the present book was made under favorable conditions, with a crew of efficient canvassers, under the immediate supervision of carefully trained examiners.

The results of the canvass were most satisfactory and the manner in which the information checked in, proved the thoroughness of the work.

Upon examination and use as a work of reference, the directory will be found to contain a thorough and complete store of information regarding all the interests of the city. It is devoted to the advancement of all the city's vital interests and has in each issue kept pace with its progress.

The library of City directories which is maintained by the publishers at their offices, for the use of its patrons, embracing directories of all the principal cities of the United States and Canada, has proven a most valuable asset to the City of Winnipeg, for through reference to the books in this library, information for almost any business or person in the United States or Canada may be obtained.

Through the exchange of directories with the various directory libraries throughout the United States and Canada and the sale of the Winnipeg Directory to many institutions, hotels and stores in large cities, the directory is circulated throughout the country and serves as a lasting advertisement for our city.

POPULATION

The canvass for the Winnipeg Directory includes the entire City, so that the name of each person employed should be taken twice; once at the dwelling and again at the place of business. After the canvass has been completed, this information is compiled and it is necessary that there be two slips for each person employed. The information taken at the residence and place of business is compared before the duplicate is laid aside. When a discrepancy is found, a special messenger is dispatched to correct the conflicting information, or if the name has not been taken at both places, to retake it at the home or business place.

The new information is checked with the previous directory and each name in the old directory is accounted for.

It is this careful superintendence and revision which makes the directory estimate of population higher than the census figures.

The directory estimate of population is based on the actual number of names contained in the book, which is multiplied by a common multiple to allow for the married women and small children whose names do not appear.

Based upon the names contained in the pages of this book, it is estimated that the population of Greater Winnipeg is 283,164. This includes considerable territory beyond the city limits, which is canvassed in order that the names of all people doing business in Winnipeg may be obtained for the directory.

Respectfully, The Publishers,

HENDERSON DIRECTORIES, LIMITED.

City of Winnipeg

The City of Winnipeg is the capital of the Province of Manitoba, Canada.

The name WINNIPEG has its origin in the Indian Cree name given to the lake 40 miles north, meaning "Win," muddy, "nipee," water.

Winnipeg is situated in Latitude 49° 54' N., Longitude 97° 08' W., at the confluence of the Red and Assiniboine Rivers; 40 miles south of Lake Winnipeg and 60 miles north of the boundary lines between Canada and the United States of America, almost midway between the Atlantic and Pacific Oceans and at an altitude of 760 feet above the seaboard level of New York.

From a Hudson's Bay trading post (Fort Garry) in 1870, with a population of 215, Winnipeg has grown to the size and finish of a first-class city of 283,164 people. When the city was incorporated in 1873 there were 1,869 inhabitants. In 1878 steam railway connection from St. Paul, Minn., had reached a point just across the river from Winnipeg; and in 1886 railway communication was established over the Canadian Pacific Railway from the East. With the advent of railway connections a steady stream of travel and trade with influx of population was started and has resulted in the building up of a city of a size and importance that is exceeded by only two cities in the Dominion of Canada.

Winnipeg is now the greatest grain centre on the American continent, and the financial, commercial, wholesale and manufacturing centre of the middle west; owing to its geographical position, its very complete railway facilities, with branches reaching out in every direction, it affords great possibilities for trade in the province and the Northwest and an inducement for the establishment of manufacturing and other industries. In addition to the many other advantages Winnipeg supplies, through its Municipal Hydro-Electric system, the cheapest electric power of any city in America.

The source of Winnipeg's new water supply is Shoal Lake in the northwest angle of the Lake of the Woods, having a drainage of about 360 square miles and water surface of 107 square miles. Shoal Lake is connected with the main lake at Ash Rapids.

The Lake of the Woods has a drainage area of about 27,700 square miles and a water surface of about 1,500 square miles, the drainage basin of Shoal Lake—360 square miles.

The Lake of the Woods constitutes an enormous reservoir of pure and soft water, situated 300 feet above the City of Winnipeg within one hundred miles of the city.

The new aqueduct is capable of delivering to Winnipeg 85 million gallons of soft water per twenty-four hours.

The Winnipeg Stock Yards are the largest in Canada, and represent an investment of over $1,000,000. There are five and one-half miles of alley-ways, six and one-half miles of railway track, six miles of sewers, and five miles of watermains at the stock yards.

Winnipeg has 69 public schools, with an attendance of 40,000; 6 colleges; the Provincial agricultural college, built at a cost of $4,000,000; the University of Manitoba; art gallery; bureau of arts and arts museum; permanent exposition of products manufactured in the city; 3 libraries with 32 branches.

The City of Winnipeg dominates the markets of the entire Western Provinces of Canada. Her geographical situation makes her the pivot point from which the trade of this vast inland empire swings. Winnipeg holds the keys to the world's greatest growing market. She is the veritable pulse of trade west of the Great Lakes. Nothing can change this fortunate situation. No force can relieve this "keystone of Western trade" of the unique advantages she possesses in the Western world. Experience has long since proven that goods passing from East to West must of necessity go through Winnipeg, and so too the products of the prairies must find their outlet here as well. Thus Winnipeg has become the greatest transportation centre in the Dominion of Canada.

HISTORICAL EXHIBIT AT WINNIPEG

The Historical Exhibit, situated on the ground floor of the Hudson's Bay Company's Winnipeg Retail Store on Main Street, at the corner of York Avenue, is open daily during business hours. Admission is free. A curator is in charge and catalogue may be had on application.

The Exhibit is well worth a visit and is of great interest, recalling as it does the romantic history of a Company which is 253 years old, and touching on the present and the earlier life of the fur traders, the thrilling story of Canada's pioneer settlers in the West, her discoverers, life in the early days in Winnipeg, also the customs, dress, industries and rituals of the North American Indian tribes with whom the Company have always been in close relationship and who are still the Company's staunch friends.

This Historical Exhibit tells its story by means of relics, pictures, documents, models, et cetera, many of them collected by the Company's officers, clerks and servants.

The Exhibit offers a secure place for a safe and permanent display, and helps to fill an educational need of the public of growing Canada.

Particular attention has been given to the historical matter connected with the development of the West, and visitors cannot fail to spend a profitable hour examining the collection, which is divided into seven sections as follows:

1. Early History.
2. Furs.
3. Indians.
4. Life in the Service.
5. Forts, Posts and Stores.
6. Fights and Wars.
7. Land and Settlement.

All the items are catalogued, with a short description of each, and numbered for ready reference.

To the left on entering, a smart model of the ketch, "Nonsuch" catches the eye. The "Nonsuch" sailed from England on a voyage of enterprise and discovery in 1668 and it was directly through this pioneer voyage that the first of the trading posts, Fort Charles (later known as Rupert's House) was established on James Bay, south of Hudson Bay, and the charter was granted by King Charles the Second to the Hudson's Bay Company in 1670, whereby they were priviledged to enlarge their trading and exploring enterprises in Canada, thus opening the way for the settlement and developing of our great country as it is today.

Continuing, one's attention is attracted by the display of the skins of Canada's beautiful fur bearing animals, the first articles of commerce between Canada and the Motherland—Beaver, Lynx, Marten, Fisher, Red Fox, White Fox, Musquash, Ermine, Mink, Grey Wolf, Otter, Skunk, Wolverine and Raccoon.

In the section devoted to "Indian Life" many articles are exhibited portraying the industries, customs, habits and pastimes of the various Indian tribes, who were necessarily creatures of circumstances and made use in their early lives of the natural resources surrounding them, so that the Indian tribes of the various parts of the country differed from one another in many ways while retaining certain characteristics throughout.

The handicrafts shown are examples of their astonishing native cleverness in adapting the material at hand to their general use.

In the Exhibit of the work of the Eskimos attention might be directed to the numerous examples of their cleverness in carving and manufacturing of articles from ivory to meet their needs and fancies. Among the many interesting objects are: an Eskimo kayak (or canoe) made from sealskin, with the hair removed, stretched when green; some particularly fine examples of beaded work by the Plains Indians, fancy work ornamented with porcupine quills, in many colors from native dyes manufactured from roots, barks, berries, et cetera, by the Mackenzie River Indians, and a typical Pacific Coast Indian drum, made of two pieces of old cedar, bent at three corners. This drum was beaten with the fist and is believed to have been the last drum of its kind at Bella Coola.

Under the head, "Life in the Service—Transportation" can be seen the ship's telegraph and whistle control of the S.S. Pelican, late of the Hudson's Bay Company's fleet and sister ship to the famous H.M.S. "Condor" commanded by the late Admiral Lord Charles Beresford at the seige of Alexandria.

This section is chiefly devoted to photographs, specimens of early contracts, service medals, bartering tokens, old paper currency, guns, knives, swords and cutlasses, straps, harpoons, spears, exploration awards, clothing, et cetera, of the pioneer trading days.

Passing to Forts, Posts and Stores (of which the Company has over 200, with seventeen posts well within the Arctic Circle), many old and rare photographs and pictures are exhibited, also relics from the earliest forts and trading posts.

Under "Fights and Wars" will be found many old weapons of warfare, including time honored Indian scalping knives and tomahawks so dear to the heart of the average boy; while the section dealing with "Land and Settlement" exhibits old maps and documents, as well as many of the valuable mineral deposits of the country.

In the Exhibit is a set of large beam scales, dated 1750, used at Moose Factory.

This Exhibit was opened in June, 1922 and is as yet in its infancy, but it is being continually added to.

WATERWORKS

The first water works system in the city was installed and operated by a private concern. The Winnipeg Water Works Company, the source of supply being the Assiniboine River, and the pumping station was located at Armstrong's Point. This Company obtained its charter on December 30th, 1880, but the works were not put in operation until 1882. The franchise was exclusive and for a term of twenty years.

In April, 1899, the city purchased the Water Works Company's plant for the sum of $237,650. Immediately upon taking over this system the city decided to change the source of supply, and an artesian well system was placed in operation in October, 1900. The well system consisted of a chain of wells on a line running in a northwesterly direction from the city. The pumping capacity of the several wells was in excess of 12,000,000 gallons per day. Upon completion of the Shoal Lake Water System the city discontinued the use of the artesian wells, but several of the larger wells are maintained as a standby ready for operation in case of interruption to the new supply.

McPhillips Street reservoir at 10.30 a.m. on March 29th, 1919, and distribution through the city mains commenced on April 5th, 1919.

The pumping station and reservoirs are located on McPhillips Street, north of Logan Avenue.

Winnipeg
Street and Avenue Directory
1924

This section of the Directory is presented in condensed form. Full information will be found in the Alphabetical Directory.

AVENUES all run East and West, and are numbered under 200 East of Main Street, Main to Princess 200 to 300, West of Princess 300 and upwards.

STREETS running North and South are numbered from the Assiniboine River as a base Northwards, and again from Notre Dame as a base Northwards.

The word "street" is always implied.

ABERDEEN AVE., from Red River west to city limits, intersecting at 1089 Main.
